

# FEED4FOOD promotes a shift to sustainable, inclusive, healthy city food systems

Feed4Food pioneers sustainable, inclusive urban food environments in three European cities (Greece, Cyprus, and Romania) through Urban Agriculture Living Labs. Our mission is to empower vulnerable communities by promoting low-impact, regenerative practices and providing healthy, sustainable food to all, with a focus on low-income consumers.

[feed4food.eu](https://feed4food.eu)

## Bucharest

A collaboration with farmers, incorporating vulnerable communities, delivering fresh products to urban consumers.

## Drama

Waste management practices for gardening areas, building an eco-friendly community, a focus on vulnerable groups, local species.

## Strovolos

Qualification of a semi-arid urban environment, ornamental plants, food crops and a shaded area for meetings.

## Our Partners

## Our Subcontractor for the Dissemination and Communication Activities

FEED4FOOD project, Grant Agreement n° 101069506, has been funded by: Research and Innovation Foundation (Cyprus), Dutch Research Council (Netherlands) General Secretariat for Research and Innovation (Greece), UE Fiscdi (Romania) under the Driving Urban Transitions Partnership, which has been co-funded by the European Union.
